

SPECIFICATION SHEET

Architectural, Functional and Green Renewable. Exteria's Solar LED bollard is the perfect architectural grade bollard for renewable and low maintenance applications. Featuring a smart motion sensor, variety of optic selections, and color temperature options, these Solar LED Bollards make it ideal for applications such as resorts, off-road hiking trails, shopping malls, and other exterior applications.

Plug-and-Play

Designed for effortless deployment, the solar fixtures operate independently with no external wiring or transformers required. Installation is quick and clean, with no trenching, re-paving, or complex electrical connections, making them ideal for both new and retrofit projects.

LISTING

ELECTRICAL

Power Storage	Panasonic Eneloop battery 6Ah. 3.6Vdc, Lifespan: 8 - 10 years
Charging Time	Requires approximately 2-3 hours of direct sunlight for a full charge, or 5-8 hours under overcast weather conditions
Solar Deprivation Limit	Fully charged unit can operate for 3-4 consecutive days without sunlight (up to 5 days maximum under extended low-light conditions)
Solar Panel	High-efficiency crystalline silicon (1 x 8W), Lifespan: 20 years
Drive Current	125mA constant

PHOTOMETRIC PERFORMANCE

Lumen Output	78.4 lm
Distribution	Narrow, Wide
Color Temperature	3000K, 4000K, 5700K, Amber
Lumen Maintenance	> 60,000 Hours (L70)

OPERATIONAL

Operating Duration	Minimum 12 hours of illumination per night under normal charging. Excess stored energy is carried over to the following night.
Control System	Exteria's Solar Controller System (5V 2A) integrating a photocell on/off switch and motion sensor for automatic operation
Photocell Control	Fixture automatically turns ON at 1.5 footcandles and OFF at 3 footcandles
Motion Sensor	High-performance infrared (PIR) motion sensor with 16.5 ft radius detection range
Motion Sensor Operation	When the fixture is ON, it operates at 33% brightness in standby mode and increases to 100% brightness for 1 minute when motion is detected, then automatically returns to dim mode for energy efficiency.

PHYSICAL

Dimension	9.45" x 7.41" x 38.6" (SP-7), 7.87" x 7.41" x 24.8" (SP-7s)
Material	Extruded aluminum
Finish	Black, Gray, Platinum Silver
Weight	22 lbs (SP-7), 15.5 lbs (SP-7s)
Anchorage	Anchor base with stainless steel anti-theft screws
Mounting	Embedded, Surface mounted

ENVIRONMENTAL

Operating Temperature	-40°F ~ 140°F
Ingress Protection	IP65
Listing	FCC, Wildlife Lighting Certification: 2019-204

WARRANTY

Warranty	3-year limited warranty

PRODUCT CONFIGURATOR 

Try our **product configurator** on our website to easily specify your requirements and add items to a fixture list.

					1S
MODEL	CCT	FINISH *	DISTRIBUTION	ANCHORAGE	SENSOR
SP7 SP-7	30K 3000K	BLK Black	NR Narrow	AKE Embedded	1S 1 Sensor
SP7S SP-7s Short	40K 4000K	GRY Gray	WD Wide	AKS Surface Mounted	
	57K 5700K	PTS Platinum Silver			
	AMB Amber				

Notes

* Uses high corrosion-resistant materials for the coating and sealant to prevent damage from long-term exposure to saltwater environment.

MOTION SENSOR DETECTION

SP-7 Smart Solar Illuminating Bollard incorporates the latest infrared motion sensor. The high performance motion sensor detects abrupt changes in temperature within a 16.5 ft radius. Movement within designated radius is necessary to trigger sensor to turn on.
